

DECEMBER 2018

# *Seasons Greetings*

*From Newport-Mesa Audiology Balance & Ear Institute*

**GRATEFUL**

## *Institute End-of-Year Update*

This holiday season, we would like to express our gratitude for our many blessings. We are thankful for our valued patients, referring physicians and our growing Institute family.

This year, we have grown our Institute's team of doctors of audiology to 14, we have three new Audiology Aides and a new Assistant Director of Clinical Research. Additionally, we continue to be a teaching Institute and have five student externs.

## ***Thank You for Your Referrals***

A big thanks goes out to our referring physicians throughout the greater Orange County area! With their patient referrals, including 215 new referring physicians, we were able to see over 1,200 new patients! And we've experienced a 200% increase in our patients from out of town that undergo remote Advanced Vestibular Treatment™ (AVT).

We're so thankful we can help so many people get back to their normal, active lifestyles - free from dizziness, vertigo and imbalance. Including over 700 new balance patients this year alone, and countless hearing loss and tinnitus patients, our Institute has seen over 50,000 patients since Dr. Mango opened the practice in 1977. We just celebrated our 41st anniversary!

In other exciting news, we secured our first licensee - Midwest Dizziness and Balance Institute. They are an audiology practice in St. Louis, Missouri we are training to diagnose and treat vestibular dysfunction with our proprietary AVT approach.

We presented on the use of virtual reality in remote vestibular rehabilitation at the American Academy of Audiology Conference last April. As an Institute, we continue to research and develop advancements in this field. Read more about it on our Dizziland Blog: [www.dizziland.com/the-use-of-virtual-reality-in-vestibular-treatment](http://www.dizziland.com/the-use-of-virtual-reality-in-vestibular-treatment).

We have also had the honor to give back to our community this year. We've donated to Wounded Warrior, Age Well Senior Services and Orange Lutheran High School basketball.

**We are so very thankful to  
everyone who has contributed  
to our continued success this  
year and the past 41 years.  
Wishing you festive holiday  
greetings and a very happy  
new year!**
